

Scouting Countries

<https://www.scouting.org/jota/countries/>

This is a complete list of the countries where Scouting exists. The asterisks mark countries that have third-party operating agreements with the U.S. This means people other than the licensed amateur radio operator can send messages or talk with others via amateur radio communication between the U.S. and that country. You can find the most recent listing of third-party traffic agreements at <http://www.arrl.org/third-party-operating-agreements> .

Algeria	Croatia	Italy	New Zealand	South Africa*
